

Dear Business Partner,

We would like to inform you that on January 15, 2024, the Salus Group, in accordance with its new five-year strategy focusing on the internationalization of operations in the CEE region and the consolidation of its position in the Slovenian market, will transition to a new domain, [salus.eu](http://salus.eu). This change is aimed at supporting our ambitions for further expanding our business in the region.

We invite you to visit our website at [www.salus.eu](http://www.salus.eu), which now has a new domain extension.

In addition to the new web link, we will also implement a change in our email addresses, which will now have the extension **@salus.eu**.

The transition will be gradual, and during the interim period, both the existing **@salus.si** and the new **@salus.eu** email addresses will be operational to ensure seamless communication.

Alongside the new web link and the introduction of new email addresses, you will also notice changes in the overall corporate visual identity of the company. However, you will still recognize us by our green logo.

Moving forward, we will continue to strive for innovation and excellence to remain the first choice for the commercialization and distribution of pharmaceutical products and medical devices in the CEE region.

We appreciate your trust in us thus far and look forward to successful collaboration.

Kind Regards,

Žiga Hieng  
President of the Management Board

Gregor Jenko

Member of the Management Board
